

Bandwidth EJ019A headphone

- > Manganese steel framework, well-adjusted flexibility, suitable pressure, never deforming;
- > High quality protein leather headband and soft honeycombed velvet earcaps, matched perfectly and cozy for long time wearing;
- > Precise cavity design, compact fibre foam reduce distortion effectively;
- > Newest ϕ 53mm large membrane driver match perfectly with the cavity, excellent sound;
- > Clear and powerful sound without distortion, thanks to the high quality membrane;
- > Ultra-light aluminum coil and suited impedance, excellent dynamic range;
- > Utilise NdFeB magnet system, perfect instant dynamic response;
- > Single-sided OFC cable duct, good signal transfer and low noise;
- > Durable screw-on jack, make sure a good connection when working.

Specification

Model	EJ201
Operating Principle	Semi-opened
Fashion	Circumaural
Transducer Type	Dynamic
Loudhailer	ϕ 53mm
Impedance	60 Ω
Sensitivity	93dB \pm 3dB
Frequency Response	15Hz-28kHz
Max.Power	600mW
Rating Power	200mW
Cable	About 3M(straight)
Plug	ϕ 3.5mm + ϕ 6.3mm
Net Weight	247.2 g(Body) ,337 g(with cable)
accessories	Built-in microphone, volume control
Norminal Headband Pressure	Approx.3N
