

Features

- With high energy density, miniaturization, ultra-thin, lightweight, and high security
- No battery leakage problems, and non-liquid electrolyte inside the battery, using colloidal solid
- Twice the capacity of lithium-ion batteries of the same size
- Adopt slot installation, aesthetics and convenient
- Lithium-Ion battery life is generally 300 to 500 charge cycles

Specifications

Model	TH-0521
Rated Voltage	DC12V
Discharge Current	< 500mA
Charge Current	< 700mA
Working hours of speech	> 8 hours
Standby Time	> 25 hours
Charge Voltage	DC15V
Size	130× 75× 20mm
Weight	0.25Kg
